

K1122TST

At 1400 PSI and a flow rate of 2.1 GPM the K 1122 TST has all the power you need

Each unit comes complete with a dirt killer nozzle and a vario nozzle for adjustment of the spray fan

The triplex piston pump which incorporates stainless steel ceramic coated pistons to reduce friction ensuring years of heavy duty commercial use

All valves are stainless steel and the seal kit includes teflon graphite rings to provide dry running safely without pump damage

The total stop completely stops the unit when you release the spray trigger. This extends motor and water seal life.

Motor	1.5 HP
Flow Rate	2.1 GPM
Hose Length	50'
Pump Pressure	1400 PSI
Pump Type	Triplex Piston

Power cord Length	23'
Voltage	120V
weight	70 LBS
Dimensions (LxWxH)	34"x14"x14"
